#### WINNIPEG EXHIBITION.

Mr. McCauley, president of the Edmonton agricultural society, returned from the Winnipeg exhibition on Monday's train. The exhibits of grain in the straw, grasses and vegetables were sent down on the train before that on which Mr. McCauley went. On reaching Winnipeg he found that the grains and grasses, although shipped dry and in good condition had become soaking wet, requiring them to be spread out and dried before being shown. Of the vegetable display 2 turnips, 1 beet, 2 cabbages and 1 cauliflower were missing, which prevented the remaining articles in these classes from being entered in competition. The parcel of flowers which Mr. McCauley took with him went astray in the Calgary railway station and did not reach Winnipeg until two days after his arrival and of course the flowers were greatly injured in appearance. The same time Edmonton's was the only floral exhibit from the Territories. The frame of this Henderson's honey was not heavy enough to be entered, but was pronounced the finest of the four samples of honey in the comb which were on exhibition. A comparison of the vegetables showed that Edmonton had three varieties of potatoes which were larger than any exhibited from other places. Also the largest white and black radish, turnip roots and white carrots, Swedish turnips and cauliflower compared favorably with the largest shown. In cabbages, red carrots and onions the Edmonton exhibits were smaller, but nothing was shown in these lines that has not been surpassed at Edmonton exhibitions. Edmonton also sent the largest sunflower, but very little larger than one sent by Prince Albert. The competition for the grain prize was very keen almost every district of Manitoba and the Territories being represented by carefully prepared exhibits displayed to the best advantage. The first prize was awarded to Edmonton on the length of the heads, as the straw was no longer than that of competing exhibits, which also had a larger number of varieties. The heads of Ladoga were nearly twice as long as those of other samples shown. The heads of red chaff were the longest of any on the grounds. The prize of \$25 was given by the C. P. R. for the best collection of wheat, barley and oats in the straw, not less than half a sheaf of each. The second prize was taken by Balmoral a district in Manitoba about 25 miles northeast of Winnipeg. Two prizes \$25 and \$20 were given by the C. P. R. for native grasses, one for Manitoba, the other for the Northwest. The competition for these prizes was also very keen. The first prize for the Northwest was won by Edmonton on the strength of the greater length and finer quality of the grasses. The Edmonton red top and blue joint showed the longest growth of any in the exhibition. A purple headed variety of grass from Edmonton was the only sample of the kind on exhibition and attracted much attention by its great beauty. Edmonton was credited by the judges with showing 32 varieties of wild grasses. The first prize Manitoba exhibit contained 62 varieties, but the exhibitor had been gathering all summer, while the Edmonton exhibit was picked up in a few days. Edmonton has every reason to congratulate itself on the part taken in the Winnipeg exhibition. The thanks of the district are due to Mr. McCauley for the care and pains which he took in collecting the samples and attending them at the exhibition. The result is proof not only that Edmonton is not outside the wheat belt but that all the wheat belt yet brought under cultivation Edmonton is the best and most productive section.

GEO. GLASSFORD, ENGINEER on the C. & E. train, reports on the use two weeks ago of two tons of coal from Humboldt's mines, that there is a much larger consumption of Edmonton coal required to make a certain amount of steam than of the Lethbridge coal. Also that as it burns with much less flame it is more difficult to keep up steam while renewing the fire than with the Lethbridge coal. In its burning qualities it more nearly resembles hard coal than the Lethbridge coal, and has the advantage of burning down to ashes, leaving no cinder or refuse as does the Lethbridge coal. The leading objection to its use would be the larger amount required than of the Lethbridge coal. Mr. Glassford is of opinion, however, that there are other seams in this vicinity the coal of which would be found more suitable than that experimented with.

Return tickets to Calgary at one fare will be issued at Edmonton station on the 14th. Good to return until the 19th.

## IMPORTANT ANNOUNCEMENT

I beg respectfully to inform my customers and the Public of Northern Alberta, that owing to rapidly increasing business I have found it necessary to remove to more central and commodious premises in Jasper Avenue. And I would now take this opportunity of thanking my numerous customers for past favors, and assure them, that as in the past, it will still continue to be my aim to deserve the esteemed patronage which hitherto they have so liberally accorded to me.

I have pleasure in directing attention to the enormous consignment of Fall Goods now opened out, which for value and variety quite eclipse anything yet offered to the Edmonton Public.

Dealing neither in Groceries nor Provisions, the high class Dress Goods, Silks and Velvets, etc., which I carry, escape the dust, and other deteriorating influences which must necessarily accompany the handling of mixed merchandise; and greater scope is also afforded for keeping a more complete and better assorted stock of the lines dealt in.

## LADIES' DEPARTMENT

DRESS GOODS, MILLINERY, ETC.

Space prevents enlarging on this head, but I beg to state that nothing in the Northwest can surpass my line of Dress Goods and Trimmings, which embrace nearly every range and which for durability, beauty, and cheapness, far exceed anything yet shown. In Fall Millinery also the selection now on view is simply A. 1. In Silks, Satins, Velvets and Plushes, I have secured a most lovely and complete assortment. I would direct special attention to a very fine range of Bengaline Silks in nearly every shade, very suitable for making in Wall-pockets, Fur Caps and Caps, Mantle Cloths, Jerseys and Shawls, Corsets, etc., etc., will be found a very large selection. And in Ladies' Fancy goods of every kind will be found an endless and most complete assortment.

## MEN'S AND BOYS' DEPARTMENT

A REGULAR SLAUGHTERING IN THIS LINE,

20 % OFF FOR CASH

Large as my New premises are, I find them too small for the immense stock which I carry. I have therefore given instructions to have a large addition immediately erected. But meanwhile I have no room to put the ENORMOUS FALL CONSIGNMENT OF READY MADE CLOTHING still to arrive and I am therefore compelled to offer the stock now on hand at the above sacrifice. It comprises a very fine assortment which may now be had at almost cost.

## HOUSE FURNISHINGS, CROCKERY, CHINA, ETC.

Parties furnishing will do well to inspect the large assortment of these goods now displayed consisting of Carpets, Rugs, Floor Cloths, Table Cloths, Piano Covers, Curtains (all kinds), Window Blinds, Blankets, Quilts, Towels, Sheetings, Napkins, Toilet Requisites, Dinner and Tea Sets, Glass and China ware, Brackets, Handsome Mirrors, Pictures, Ornaments.

Parties writing for samples of Dress Goods, Etc., will receive prompt attention; and to all desirous of inspecting and pricing the goods, a cordial welcome will be given as I am confident that my values will satisfy the keenest buyer.

# Edmonton Bulletin Supplement

EDMONTON, SATURDAY, OCTOBER 10TH, 1891.

## LOCAL.

THE publishers of the Dominion Illustrated have in preparation the most magnificent Christmas number ever issued in Canada. Its literary and artistic features will stand unrivalled. It will be a purely Canadian work. Wait for it! Published by the Sabiston Litho. & Pub. Co., Montreal.

WHILE typhoid fever is at work in all the southern portion of the Northwest it may not be out of place to remark that there is not a case of fever in any part of the Edmonton district so far as the medical men are aware. Edmonton is the only part of Manitoba and the Northwest not subject to this fever.

SPLENDID illustrations, supplements, literary features and artistic arrangement: beautiful engravings, charming stories, sketches and poems, wit and humor, in delightful combination in the Christmas number of the Dominion Illustrated for 1891. No expense will be spared to make it the most magnificent holiday souvenir ever issued in Canada. Published by the Sabiston Litho. & Pub. Co., Montreal.

A RECENT number of the Western World calls editorial attention to a statement of J. J. Hill of the Great Northern railway of the United States, to the effect that there was no reliable wheat country in the Canadian Northwest beyond Brandon, Manitoba. The World expends a great deal of valuable thought and space in proving what would naturally occur to the most casual reader of almost any statement with Mr. Hill's name annexed, namely that that gentleman lied.

THE supplementary estimates contain the following sums: M. McCauley, balance of contract on beef \$169.90, due on hire of team \$36, potatoes and barley \$502. Clerical work in connection with settling the above claims \$200. Balance of Mr. McCauley's claim, for hauling military stores, \$37. Mr. McCauley was compelled to place these accounts, incurred in 1885, in the hands of S. S. Taylor for collection. The government has at last paid them rather than stand suit in the exchequer court.

WM. PEARCE, inspector of mines returned from Lac la Biche on Wednesday. He had been engaged there for a short time in settling the old claims along the lake. The season has been most favorable for growth at Lac la Biche and the crops have turned out well. The acreage under cultivation is of course small. The first frost of the season in the settlement occurred on October 1st and was very severe. Up to that time the gardens were quite green and potatoe tops untouched by frost. Mr. Pearce left for Calgary on Friday's train.

A PARTY of six residents of Grafton, Dakota, arrived on Monday's train to spy out the land, after taking in the Winnipeg exhibition where they were favorably impressed by the Edmonton exhibit. They were driven to St. Albert and the Sturgeon on Tuesday by M. McCauley. They examined several lots of wheat standing in stook and pronounced all number 1 hard. All the members of the party spoke of investing in land and two spoke of putting up a roller mill. They left on Wednesday's train for the Pacific coast and will probably visit Edmonton again soon.

The leading objection to its use would be the larger amount required than of the Lethbridge coal. Mr. Glassford is of opinion, however, that there are other seams in this vicinity the coal of which would be found more suitable than that experimented with.

Return tickets to Calgary at one fare will be issued at Edmonton station on the 14th. Good to return until the 19th.

## AGRICULTURAL EXHIBITION.

Yesterday's was the most successful agricultural exhibition ever held in Edmonton, and it was the eleventh. The weather was the finest possible, the crowd was larger, the exhibits more numerous and the competition keener in almost all classes than ever before. The show of horses was particularly large and good. Cattle, sheep and hogs were an improvement on former years, but still were not, in numbers at least, up to a desirable standard. There was a large and good display of poultry. Grain was good but the samples were not numerous. In dairy products, roots and vegetables there was nothing to be desired. The ladies work was more useful and less ornamental than formerly. The show of house plants was small but beautiful. A musk ox robe from the Barren Grounds was a magnificent affair. Boorne & May exhibited numerous photos including Edmonton harvest scenes, which could not be surpassed. W. Humberstone made a special exhibit of Edmonton pressed brick and coal. Full particulars with the prize list will appear next week.

## ST. ALBERT EXHIBITION.

The annual exhibition of the St. Albert agricultural society was held on Tuesday last on the premises of H. W. McKenney. There was a good display of farm produce and a fair attendance of spectators. The prize list has been crowded out of this week's issue.

## HOSPITAL CONCERT.

The musical and literary entertainments given on Monday and Tuesday evenings by Supt. Niblock's concert troupe in aid of the Medicine Hat general hospital were a great success. On Monday evening the Presbyterian church was filled at an early hour but owing to unavoidable delays it was half past nine o'clock before the performers appeared. Rev. D. G. McQueen, pastor of the church, opened the entertainment with a few pleasant remarks. Although Miss Lily Evans was suffering from a severe cold her recitals were excellent and were received with enthusiastic applause. Her representation of forty emotions was wonderfully real. Mrs. Coons' excellent singing and winning manner captured the house. Mrs. St. Jean fully sustained the reputation which she has established in Edmonton as a first class singer. Mr. Galletly's Scottish songs were rapturously encored, and Mr. Graham's splendid touch on the piano and his fine voice delighted every one. On Tuesday night the church was again filled. Unfortunately Miss Evan's cold was worse and she was unable to do herself full justice in her recitals. Mrs. Coons was in even better form than on the previous evening and her singing was still more rapturously received. Mrs. St. Jean was again at her best, and Mr. Galletly fairly threw himself his Scottish pieces. "Huntingtower," by Mr. Galletly and Mrs. Jas. Lauder of Edmonton brought a torrent of applause. Mr. Graham gave two excellent songs with piano accompaniment. At the close three hearty cheers were given by the audience for the Medicine Hat hospital concert troupe. The two performances netted quite a handsome sum for the hospital.

## THE FOUNDATIONS OF EDMONTON'S FUTURE PROSPERITY.

It will be well that that the many visitors to Edmonton on the occasion of our approaching exhibition should be able to read in the columns of THE BULLETIN something concerning not only the present advantages of the town itself but also the resources of the surrounding country and the future clearly in store for both. Let us consider these things then.

The town is beautifully situated at the head of navigation on the Saskatchewan, the richest gold-bearing river in the world, and one in which platinum, now in great demand, abounds. The town is also the terminus of the Calgary & Edmonton Railway, already completed thus far from the south and in all probability very shortly to be extended north to Athabasca Landing on the Athabasca River, the great water-highway to the Peace and Mackenzie River districts, shown by Lieut.-Governor Schultz's Parliamentary committee to be so immensely rich in nature's resources of all kinds; so much so as to have become known as "Schultz's Paradise." Edmonton will be the centre into which this wealth will find its way and from which the means of developing the northern districts will be supplied; for Edmonton is in that portion of Alberta, which furnishes vast quantities of timber, coal and gold, which produces grains of the best grades in abundance, which affords ample hay and grazing lands and is sure to be on the main line of a new transcontinental railway certain to be constructed in the near future.

The wheat and grasses from this district captured the first prize at Winnipeg Exhibition last month. It is estimated that the crop for this season will yield half a million bushels of perfectly ripened grain entirely of untouched by frost; and there have also been immense yields of all kinds of roots, vegetables and garden produce.

The government Land Office reports 328 entries since the 1st April of this year; \$20,000 have changed hands in Edmonton town lots during the past thirty days; an Electric Light Company with a capital of \$10,000 has been formed for the purpose of furnishing light, heat and power to the townspeople; the Imperial Bank lately opened, is about increasing its staff; substantial new buildings are going up in all directions; and the government buildings, the erection of which will be commenced in spring, and which will cost about \$25,000, and many other great improvements are in progress in contemplation. These things are prophetic of Edmonton's future.

The present time is but the dawn of the era of the rapid advancement of our town. Now is the golden opportunity for the investor, whether he be farmer, laborer, mechanic, merchant or capitalist; for certain it is that within the next few months there will be a great advance in the value of property. During the next thirty days there will be exposed for sale at absurdly low prices and upon very easy terms of payment one thousand town lots in the heart of the town lying in the Pritchard Estate and other adjacent properties. For these desirable lots application is to be made to P. Heimnck & Co., Real Estate and Financial agents, Edmonton, either personally or by letter.

# THE COAST.

Mr. and Mrs. J. A. McDougall returned from a trip to Vancouver and Victoria, B. C., on Monday's train. Mr. McDougall was particularly charmed with Victoria, a beautiful prosperous and wealthy city, finely situated and enjoying a most pleasant and temperate climate. He attended the agricultural show then in progress. In grains and vegetables generally there was nothing to excel Edmonton, except two rowed barley, which was magnificent. Sheep and pigs were a poor showing but cattle and horses were very good. John Snell, of Edmonton, Ontario, the celebrated short horn breeder, had been brought all the way to the coast to act as judge on the stock. The strong point of the show was the fruit and flowers, which were beyond praise. As an instance of the immense scale upon which saw milling is carried on on the coast Mr. McDougall mentions that a vessel arrived at the Hastings mill to take on 2 1/2 million feet of lumber. The logs were still in the water as the ship appeared in sight, but were sawed into lumber as fast as the vessel could be loaded. A real estate boom was in progress in regard to Fort Simpson at the mouth of the Skeena river the terminus of an imaginary railway from Fort Churchill on Hudson's Bay—as wild an idea as the Edmonton boom of 1882. Vancouver is a fine city but not the equal of Victoria, and between the two there is the most bitter rivalry. Vancouver has a large sugar refinery which is quite an object of interest. Mr. McDougall found that the fame of Edmonton had spread to the coast and he returned better satisfied with this place and more confident of its future than ever before.
